

LNCMC September News

Welcome to what is hoped to become your regular monthly newsletter to keep you informed as to what has been, and what is planned to happen within the club and further afield. Primarily this is an electronic version of which you are welcome to forward on to your friends and family if they are not on our regular mailing list, alternatively if you do not wish to receive anything please let me know so that appropriate action can be taken.

The recent **Motor Traders Trial at Waterloo Farm, North Petherwin** had a reduced entry from previous years but those who entered seemed to enjoy themselves, even if you didn't win an award you probably left with a better sun tan than when you arrived, it was very warm. **The Testing Trial at Cannafame** had a disappointingly low entry although it did still run, this is another event which in the past has had a very good entry, obviously people were busy doing other things. The club would like to say thankyou to the event organisers and marshals for both events.

On the 16th of September we have the **David Ayers Sporting Trial** which is a round of the ASWMC and the BTRDA championships to be held at Trevilla Farm , Marshgate, Camelford As always we require marshals for the event to happen, if you are available to marshal Mike Wevill would love to hear from you, telephone 01566 784451

The Tamar Classic Trial will be held on the 16th of October, as usual it is a round of the ASWMC and the ACTC championships. This year sees a few changes to the event in both start venue and in route once again Mike Wevill is looking for marshals so please phone him.

The MCC will have their **Edinburgh Trial** on the 6th of October I shall be dragging the Dellow up there and I suspect there will be several other Westcountry entrants making the annual pilgrimage north. It has the promise of a cracking event and a welcome return to using Litton Slack.

It would be nice if readers of this epistle could send in any snippets of news of events they have attended, or are planning to, otherwise I have to fill it with my own drivel. Email to johnturner@lncmc.co.uk

Over the August Bank Holiday I did a two wheeled pilgrimage to the Isle of Wight, blessed with dry weather on the journey up and back but a wash out on the day in between, could have been worse though. Vivien and I decided to do a bit of walking last week and ventured up to Hartland. After coffee in the hotel we headed down the coast for a while before heading in land in order to make it a circular route. On close inspection of the OS map a familiar place name came up "Wargery" , many classic trailers will know this hill. We walked down through the farm that leads to it and sure enough there it was, our Collie dog "Blue" sat for a while on the restart unfortunately facing the wrong way (he's not very bright) and due to the dry conditions got off up the hill with no trouble. On the track leading out to Stoke village we sat and had a picnic lunch, serenaded by the bells of St Nectans Church, a quintessentially English summer's afternoon.
